

The Board directs the Superintendent to implement procedures that assure District compliance with all state and federal requirements for financial monitoring and audits. Contingent upon prescribed qualifying criteria, such requirements may include, but are not limited to, entering into contract with an auditor approved by the State Auditor on a fiscal year basis and being audited based upon the federal Single Audit Act Amendments of 1996.

The procurement of the necessary services shall be consistent with the State procurement code and District policy.

A final report of each separate fiscal management review shall be presented to the Board for examination and discussion. After a report has been presented to the Board, it will become a matter of public record, and its distribution will not be limited. Copies of a final report shall be filed with appropriate state and other authorities.
